iQ
intelligent QUALITY

Patrol as you wish

Highly convenient to patrol in spinning mills. Suitable for Ring frame operators, maintenance persons and supervisors

Ultimo Data Integrated

Ultimo data integrated through Wi-Fi TAB. Helps Ring frame operator to monitor breaks and prioritise patrolling

Auto illumination on spindles

Ring frame spindles illuminated automatically on both sides for attending breaks. Additional head light for navigation.

SpinBike

Adding convenience to operators at work place motivates and increases productivity. **SpinBike** in combination with **PREMIER Ultimo** is such an essential tool for spinning mills which helps operator to patrol quickly and directly reach the break positions based on spindle light indications. Integrated with **PREMIER Ultimo** data through Wi-Fi helps to prioritise the Ring frame sides to attend, reduce end mending time and increase in operator efficiency

Music on-the-go

Music system provided with wire-free head phones reduces fatigue to operators

Ergonomic seating

Ergonomically designed seat with back rest and adjustable seat height adds comfort.
